Custom Frames

Here at Image Light Photography we can create your custom framing and matting for any images produced by Image Light Photography.

Framing: Choose from several wood frames we have on display in our studio. We can build your frames to just about any dimension. If you don't see a frame style you like, let us know, we might be able to order it for you.

Mat Cutting: We have several colors available to coordinate with just about any decor. We can create double and single mats to your specifications.

Print Mounting: All prints can benefit from quality mounting on a variety of substrate. We most commonly use Gator Board for a rigid but light weight mounting results.

PlexiGlass: Whenever you mount prints with mats you will need to have glass or Plexiglas to protect your prints and mats. Some glass is available upon request.

Hardware: We can also provide print backing, wire hangers and wall bumpers.
